ESL

for Housekeeping Workers I

COMMUNICATE IN ENGLISH WITH CONFIDENCE!

+ Communicating with co-workers, guests, and management in English with confidence can open the door to new professional opportunities.

This introductory, beginning level of English certificate course enables you to listen actively and communicate effectively with guests in a variety of service situations, including greeting, asking, answering, offering, and clarifying for both face-to-face and telephone interactions.

You will understand and use singular, plural, and non-count nouns; past, present and future verb tenses; modal verbs of permission, ability, request, and willingness; and common expressions and phrases to use in a variety of guest scenarios. A pronunciation component with emphases on contracted speech is included in each learning module to enhance listening mastery and speaking confidence. Course content also includes formal vs. informal English competencies.

A completion certificate will be awarded when you attend 80% of the course, complete 80% of the practice tests in English Grammar Online, and participate in the final project.

OPEN THE DOOR TO NEW POSSIBILITIES!

+ Course includes course text, one-year access to Levels 1, 2, 3, and 4 in English Grammar Online, and completion certificates.

Course hours include 12, three-hour learning and practice sessions with an on-site instructor and a certificate ceremony.

CLINICAL PLACEMENTS

Clinical Locations

Clinical and observational experiences for nursing students take place in a wide range of health agencies in Collier and Lee counties. Clinical placements include, but are not limited to, acute care agencies (hospitals), extended care facilities, city and county health departments, schools, preschool enrichment programs, child health centers, community mental health agencies, senior citizen centers, and hospices.

As a result of the various clinical locations, nursing students are expected to travel for these experiences. Some of the clinical locations may be as far as one hour from the University.

Students are responsible for their own transportation to clinical sites and the associated costs, if any. In many clinical placements, secured space may not be provided for books and other valuables, therefore it is recommended that students leave personal belongings and valuables at home.

Neither Hodges University nor the clinical site will be responsible for lost or stolen items.

Onboarding

Onboarding is composed of completing various institutional requirements. For a successful placement, students must complete all onboarding requirements by communicated deadlines. If onboarding requirements are not completed by the communicated deadlines, students will be removed from clinical placement for the session. Student onboarding requirements must be valid during dates of clinical placement.

Onboarding may include, but are not limited to, completion of forms, assessments such as a free eye test, or educational modules regarding the institution. In-person training and orientations set forth by the clinical agencies may be part of the onboarding process. These include essential areas of information deemed vital to faculty, students, and other health center personnel who participate in direct patient care. These include, but are not limited to:

- Fire Safety
- Patient Safety
- Infection Control
- HIPAA
